Dear Reader,

in this newsletter we like to inform you about our Technical Partnership with Ducati Corse. Read more about AVL SCHRICK, known for high-precision manufacturing, partnering with the Touring Car Legends 2021. Moreover, learn about our new project with the Knowledge Visualization group of Know-Center GmbH in Graz.

Ducati Corse Extends Technical Partnership With AVL

AVL provides Ducati Corse with AVL CAMEO™ and AVL CONCERTO™

Ducati's racing division, responsible for developing the bikes that take part in MotoGP and Superbike competitions, has extended its partnership with AVL for the fourth time. Under the brand of AVL RACING the cooperation has now the official status as "Technical Partner", which enables AVL the access to the race community and the possibility to promote and show AVL's strength in the field of two-wheeler racing.

AVL Schrick Becomes Partner of the Touring Car Legends

The supplier for reliable precision components will adorn the legendary racing cars

Founded in 2019, the Touring Car Legends revives the golden years of touring car racing in the eighties and nineties. AVL SCHRICK, supplying cutting-edge technology worldwide for more than four decades, supports the upcoming racing series of Touring Car Legends as a new partner. The logo of the known supplier for reliable precision components will in future adorn the trailers and C-pillars of the legendary racing cars.

Driver Performance Evaluation with Latest Body Sensor Technology at the AVL Driving Simulator

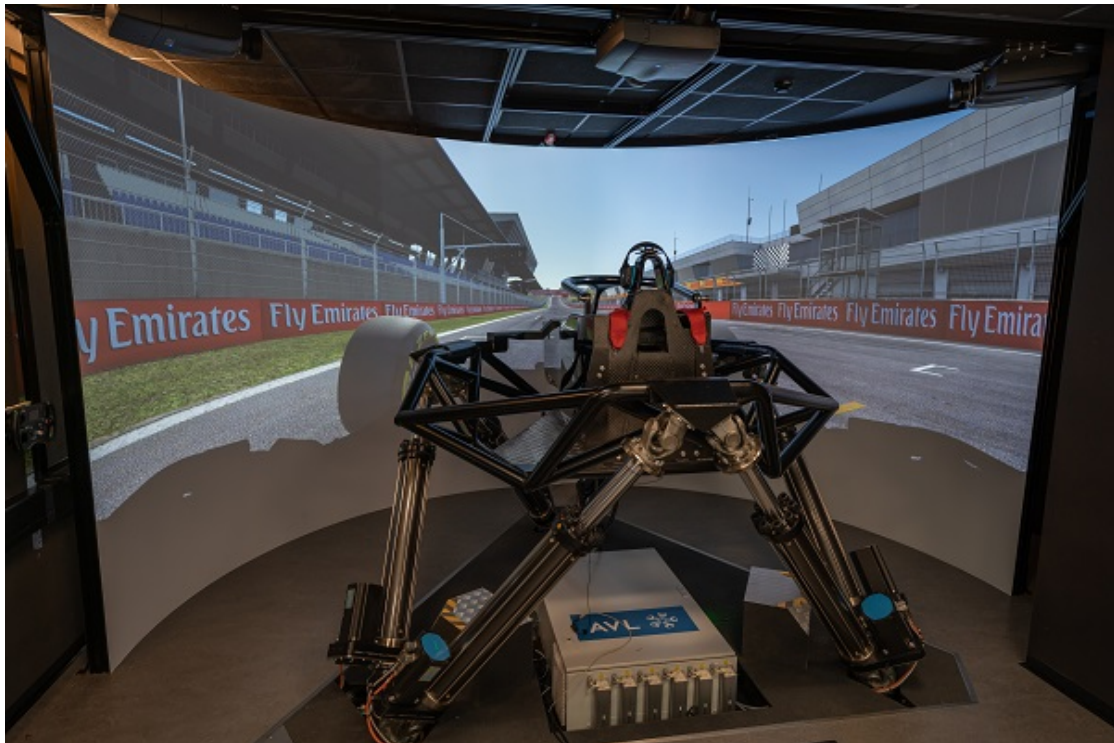

AVL RACING and the Knowledge Visualization team of Know-Center GmbH join forces

AVL RACING and the Knowledge Visualization group of Know-Center GmbH, are evaluating the performance of racing drivers using the latest wearables technologies, data analytics and vehicle dynamics simulation software from AVL. The goal is to measure human factors related with biosensors synchronized with vehicle data at a Driver-in-the-Loop (DiL) and vehicle dynamics simulation software AVL VSM™ RACE.
